Nominee's Statement

My name is Mandy MacNevin-Reynolds. I am writing today to share my expressed interest in your available Board Director position with the CCCF. Thank you for both your time and consideration.

I am currently a front line educator. I work at an early years centre in Stratford Prince Edward Island. I've been with my current centre for almost 13 years. The majority of my position as front line educator has been in the infant program. I have a strong passion for working with this age group. Knowing what we know about brain development, the experiences a child has in their first 3 years are paramount to lifelong learning and positive mental health. It is for this reason I have a keen interest in infant development and healthy well being. I am a proud trained facilitator with the Handle with Care program here on PEI.

I recently completed a 6 year term as member of the Early Childhood Association of PEI Board of Directors. I believe my experience on this board will give me valuable insight and expertise that could be a benefit to your organization. PEI is a Canadian leader in the early years sector and I would like to share my knowledge and leadership skills to help further the missions of the CCCF to build an incredible system for all Canadian children and families.
